Cobra Snake | Cable King »

Product Overview

Introducing the New Slegers Cobra Snake Cable King. The Cable King is a professional solution for small to medium cable installations. This "All In One Kit" is manufactured from 3.0mm diameter composite fibreglass, coated in a red polypropylene & cased in a high impact resistant case complete with accessories. The Cable King allows for easy handling and the benefit of fast feed out & rewind, and is used for pulling cables & wires such as Electric, Audio Visual, CATV, Telephone, Datacom in new or populated conduits.

The Cobra Snake Cable King Kit comes complete with a range of accessories all packed neatly in a convenient storage compartment. Cable King kit includes the following accessories: 3 rod starting ends, 2 coupling joints, 3 pulling eyelets, 1 flexible ball head guide 7mm, 1 flexible ball head guide 10mm, 1 Sure Grip pulling Grip 3-6mm, 1 special glue, 1 Cable pulling grip 6-9mm, 1 flexible leader spring guide.

Features

- » 3.0mm x 40m in a high impact resistant lightweight case
- » Fast & easy cable installation
- » Non conductive fibreglass rod coated in red polypropylene for superior pulling strength & reduction in friction
- » Perfect for use in populated conduits
- » Includes a range of handy accessories
- » Palm grip for ease of operation
- » Convenient side handle for fast feed out & rewind without tangling
- » Highly resilient to bending and shearing, allowing to turn in very small bends
